

Welcome to Harbor Shores. Harbor Shores is the finest beach, golf, and residential waterfront community in Michigan's Great Southwest and the only Jack Nicklaus Signature Course on Lake Michigan.

Commemorating our official grand opening, Harbor Shores hosted the Champions for Change Golf Challenge in 2010. This historic event celebrated an epic transformation of the area, bringing Jack Nicklaus, Arnold Palmer, Tom Watson, and Johnny Miller together to compete for the first time ever.

As you play the course, it's difficult to imagine that over 3 million square feet of dilapidated buildings were demolished and over 140,000 tons of waste material was removed from portions of the Paw Paw River and throughout the various sites on the property.

Harbor Shores is a not-for-profit development. While none of your greens fees are used to pay for the construction of this magnificent facility, a portion is used to maintain the public areas in Jean Klock Park and its 12 mile walking system. Any revenues above operating expenses are granted back to the community for job training and educational programs.

Truly a unique development, Harbor Shores is also a proud partner of The First Tee of Benton Harbor, an organization that promotes character development and life-enhancing values through the game of golf. Many of the people assisting you today are members of The First Tee.

Please take time to enjoy the various metal and glass sculptures along the golf course. Each sculpture depicts native plant species and a history of Jack Nicklaus' 18 Major Championships and 2 US Amateur Championships. These pieces of art were designed and crafted by local Benton Harbor artists Jerry Catania and Josh Andres.

Thank you for golfing at Harbor Shores. We hope you enjoy the experience.
